

# BPG 6588

## PROPERTIES

This packing is made of carbonised yarn with a special PTFE-graphite impregnation. It uses a silicon-free running in lubricant.

## APPLICATIONS

This product is designed for use in rotary pumps.

## OPERATION PARAMETERS

Speed	25 m/s
Temperature	-50°C ... +280°C
PH Value	0 ... 13
Pressure	2.5 MPa
Density	1.32 g / cm <sup>3</sup>

## PRODUCT SPECIFICATIONS

Media	Cold water, hot water, steam, aqueous solutions, diluted acids and alkalis
-------	--

## BENEFITS

- Very good heat dissipation due to high carbon content
- Strong, flexible yarn
- The impregnation maintains an excellent bond to the yarn over the complete life of the packing
- Excellent pressure and extrusion resistance
- The thermal and volumetric stability provides superior sealing performance
